

AI can talk – but can it listen to citizens?

June 17th 16:00-17:00 CET

A perspective from energy communities. Europe hosts over 9,000 energy communities, yet many citizens—especially from hard-to-reach groups—remain disengaged. Barriers include low interest, digital gaps, and complexity beyond self-generation. Can AI-driven digital tool and social innovation close this gap? Join three EU Horizon-funded projects in a live discussion to explore how we can ensure no one is left behind in the energy transition. **Register [HERE](#).**

AGENDA

- 16:00 Introduction
- 16: 05 Section 1: Interest, knowledge, skills...what is holding citizens back?
- 16:15 Section 2: Another buzzword or can AI truly empower citizens?
- 16:30 Section 3: Social innovation: digital tools for real people
- 16:45 Open Q&A from audience via chat
- 16:55 Final remarks

SPEAKERS

Gabriella Siegfried
Senior Sustainability
Analyst at EPRI

Gianfranco Chicco
Full Professor, Electrical
Energy Systems at Polito

Irina Rets
Senior Research Fellow at
Open University

Marialaura Di Somma
Associate Professor at
University of Naples
Federico II

Jurijs Grizāns
Senior Expert in
Sustainable Energy
Systems at ICLEI
