

OPENGELA

HIROSS4ALL: HOME INTEGRATED ONE-STOP-SHOPS
FOR VULNERABLE DISTRICTS

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 846707.

Opengela Replication workshop: let's share the lessons learnt

27/09/22

1 Introduction

Opengela is exporting! The Opengela home renovation service has grown in influence not only in the rest of the Basque Country, with new “district offices”, but in other EU countries via its replication programme that started in September 2021.

In this programme, regions and cities could learn about the Opengela model which goes from building energy renovation to urban regeneration, with specific attention given to vulnerable citizens. In spring 2022, representatives from seven regions and cities visited Bilbao and Eibar to see first-hand the pilot offices.

6 months later, they are invited in Brussels to share their first plans for implementing the relevant features of the Opengela model. What features of this model will they apply? What you can take away from the Opengela model for your own territory? Join us on September 27th to exchange directly with the project partners and replication cities and regions. We will discuss how to set up a One-Stop-Shop, how to ensure the longevity and independence of OSS, and how to go beyond buildings to have an urban regeneration vision.

2 Practicalities

2.1 Where and when

Where	When
BIP, 2-4 Rue Royale, Brussels, Belgium	27 September 2022, at 14:00 – 17:00 CEST

2.2 COVID-19 conditions

Check reopen.europa.eu to find the latest information on the situation in Belgium. Cleaning products and masks will be available for participants to use at the venue.
