

10-12 JUNE 2025

## EUROPEAN SUSTAINABLE ENERGY WEEK

Powering a fair and competitive  
green transition

### EUSEW 2025 – Event description

The [European Sustainable Energy Week \(EUSEW\)](#) is the biggest event dedicated to renewables and efficient energy use in Europe, organised by the European Commission's Directorate-General for Energy and the European Climate, Infrastructure and Environment Executive Agency (CINEA).

In 2025, EUSEW will be held in a hybrid format, with onsite events in Brussels and online, on 10-12 June. The theme of the event is 'Powering a fair and competitive green transition'.

The European Sustainable Energy Week consists of a 3-day Policy Conference, the European Sustainable Energy Awards Ceremony, the Energy Fair and the sixth edition of the European Youth Energy Day. The wider EUSEW community can actively shape the event in multiple ways – whether by hosting a policy session during the event week or participating with their local activity as a Sustainable Energy Day.

For updates on the agenda and location of the events, please refer to [EUSEW website](#) and #EUSEW2025 on social media.
